3) News from the European Economic Association “Women in Economics”

Women in Economics Public List

Since 2011 the EEA has been publishing the names and research areas of its female members on the WinE section of the EEA homepage. The aim of this initiative is to support women in economics by facilitating the formation of networks and by increasing the visibility of female economists. Over 80% of the female members of EEA have chosen to make their details public. Over the past 6 years, the EEA central office has redirected departments of economics and journalists to the list and the WinE Committee is very pleased with its success.

It takes a few minutes to ensure that your name is inserted in this public list. Firstly, one must be a current member of the EEA and have access to the EEA membership profile page. Once logged on to your EEA membership page, please go to "My Profile", scroll down the page and ensure that you answer "yes" to the following questions :-

1. Would you like your details to be shown in the EEA Members' Directory?
2. Would you like to receive news from Women in Economics (WinE) and other institutions engaged in women issues within economics?

The list is updated twice a year and will be updated next on December 31. We encourage all EEA female members to support this initiative and ensure that all settings on My Profile page are completed by this date. If your name is already on the list, then please remember to keep your EEA membership profile up-to-date so that any changes to your details are made publicly.
